Episode 17 Action Items

Episode Summary

Delve into the power of aligned autonomy, servant leadership, and the secret formulas to developing a thriving, cohesive organization. Discover strategies that can accelerate your organization and empower your teams to achieve more, faster.

Action Items

1. Develop strong habits of reflection.

Work with your team and develop strong habits of reflection so feedback and accountability become a structural part of the team.

2. Let team members choose.

Let each team member choose what they want to contribute. This will open doors for more engagement.

3. Distinguish your decisions.

Knowing what decisions to make when will accelerate your decision-making.
